

## 201 Corrosion Resistant Stainless Steel Rods For Cold Heading Steel

### Our Product Introduction

For more products please visit us on [metalsstainless-steel.com](http://metalsstainless-steel.com)

#### Basic Information

- Place of Origin: china
- Brand Name: Sheng Quan
- Certification: ISO9001:2000
- Model Number: 201/304/304L/316/316L/321/309/310
- Minimum Order Quantity: 1ton
- Price: USD1500-USD6000
- Packaging Details: Standard Export Sea-Worthy Packing
- Delivery Time: 5-15days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 15000Tons

#### Product Specification

- Advantages: Strong Corrosion And Decorative Effect
- Processing Service: Bending, Cutting
- Origin: Jiangsu China(Mainland)
- Special Use: Cold Heading Steel
- Thickness Tolerance:  $\pm 0.01\text{mm}$
- Type: Round, Square, Flat, Angle,
- Trading Terms: FOB CIF CFR EXW Ect
- Material: Stainless Steel
- Highlight: **Corrosion Resistant Stainless Steel rod,  
Cold Heading Stainless Steel rod,  
stainless steel round bar 201**

**Product Description:**

The Stainless Steel Rod is classified as Cold Heading Steel, which means it is specifically designed for cold forming processes such as cold heading, cold forging, and cold extrusion. Cold Heading Steel has high strength, good toughness, and excellent plasticity, making it ideal for producing various fasteners, screws, bolts, and other components.

When it comes to trading terms, the Stainless Steel Rod is available in various options such as FOB (Free on Board), CIF (Cost, Insurance, and Freight), CFR (Cost and Freight), EXW (Ex Works), and many more. This makes it easier for customers to choose the best option that suits their needs and budget.

One of the main advantages of the Stainless Steel Rod is its strong corrosion resistance. Stainless Steel contains chromium, which forms a passive oxide layer on the surface of the metal. This layer prevents the metal from further oxidation and corrosion, making it highly durable and long-lasting. Additionally, Stainless Steel has a decorative effect, making it ideal for architectural and decorative applications. The Stainless Steel Rod can also undergo various processing services such as bending and cutting. These services allow the Stainless Steel Rod to be customized and fabricated to specific shapes and dimensions, making it easier to use in different applications. Bending allows the Stainless Steel Rod to be formed into various angles and curves, while cutting allows it to be trimmed to the desired length.

In conclusion, the Stainless Steel Rod or Stainless Steel Bar is an essential metal component used in various industrial applications. It is durable, corrosion-resistant, and has a decorative effect, making it ideal for architectural and decorative applications. The Stainless Steel Rod is available in different sizes and dimensions, classified as Cold Heading Steel, and can undergo various processing services such as bending and cutting. It is available in different trading terms, making it easier for customers to choose the best option that suits their needs and budget.

Product Name	Bright Stainless steel rod	
Material	201 304,304L,309S,310S,316,316L,316Ti,317,317L,321,347H,2021,202,405,409,410,420,430,etc	
Type	Round Bar	
Surface	Bright Polished	
Diameter	Round Bar	Diameter: 3mm~50mm
Length	3m-6m or custom cutting any length as request	
Quality test	we can offer MTC (mill test certificate)	
MOQ	300 kgs	
Payment terms	L/C T/T (30%DEPOSIT) or upon negotiation	
Stock or not	in stock	
Packing	Bundled,wooden box for export standard package	
Delivery time	7-15 days,or according to the order quantity or upon negotiation	

## Features:

Product Name: Stainless Steel Rod

Dimensions: From 4mm to 500mm

Type: Round, Square, Flat, Angle

Thickness Tolerance:  $\pm 0.01$ mm

Trading Terms: FOB, CIF, CFR, EXW, etc.

Special Use: Cold Heading Steel

Keywords: Steel Rod, Steel Bar, Steel Round Rod

## Applications:

The stainless steel round bar is widely used in various industries and applications due to its excellent characteristics. It is commonly used in construction sites for making structures and supports. Stainless steel rods are also used in the automotive industry for manufacturing different parts and components. These metal round rods are also used in the marine industry as they can withstand harsh sea conditions. Another common application of the Sheng Quan stainless steel rod is in the food and beverage industry. Due to its non-corrosive and hygienic properties, stainless steel round bars are used in the production of food processing equipment and storage tanks. The medical industry also uses stainless steel rods for making surgical instruments and implants.

Sheng Quan stainless steel round bars are ISO9001:2000 certified, ensuring their high quality and reliability. The minimum order quantity for these stainless steel rods is 1 ton, and their prices range from USD1500-USD6000. The packaging of these rods is done with standard export sea-worthy packing, and their delivery time is between 5-15 days. The payment terms are L/C, T/T, and Western Union, and the supply ability is 15000Tons.

In conclusion, Sheng Quan stainless steel rods are versatile and can be used in numerous applications and scenarios. They are made of high-quality materials, ensuring their durability, temperature resistance, and reliability. These rods are an excellent choice for anyone who requires a robust and non-corrosive metal round rod for their project or application.

## Customization:

Brand Name: Sheng Quan

Model Number: 201/304/304L/316/316L/321/309/310

Place of Origin: China

Certification: ISO9001:2000

Minimum Order Quantity: 1 ton

Price: USD1500-USD6000

Packaging Details: Standard Export Sea-Worthy Packing

Delivery Time: 5-15 days

Payment Terms: L/C, T/T, Western Union

Supply Ability: 15000 Tons

Advantages: Strong Corrosion and Decorative Effect

Dimension: 20\*20\*3mm-100\*100\*12mm

Grade: Stainless Steel Bar

Thickness Tolerance:  $\pm 0.01$ mm

Special Use: Cold Heading Steel  
Keywords: Steel Rod, Steel Rod, Stainless Steel Round Bar

**Packing and Shipping:**

**Product Packaging:**  
The stainless steel rods are packed securely in bundles with steel straps and covered with plastic sheets. The bundles are then placed in wooden crates for added protection during transportation.

**Shipping:**  
We use reliable and trusted shipping companies to ensure timely and safe delivery of the stainless steel rods to our customers. The shipping cost will be calculated based on the destination and weight of the order.
