

Customizable Corrosion Resistance Stainless Steel Cable Tray Indoor Outdoor

Our Product Introduction

For more products please visit us on metalsstainless-steel.com

Basic Information

- Place of Origin: China
- Brand Name: ShengQuan
- Model Number: 201/304/304L/316/316L

Product Specification

- Size: Various Sizes Available
- Application: Indoor Outdoor
- Material: Stainless Steel
- Weather Resistance: Yes
- Corrosion Resistance: High
- Cable Tray Length: Customized
- Accessories: Available For Purchase Separately
- Load Capacity: Medium To Heavy Duty
- Highlight: **Indoor Outdoor Stainless Steel Cable Tray, Customizable Stainless Steel Cable Tray, Corrosion Resistance Stainless Steel Cable Tray**

Product Description:

Our cable tray is made from high-quality materials, including a Chrome Nickel Wire Mounting Tray and a Metallic Rod Cabling System, making it incredibly durable and resistant to wear and tear. With its Inox Cable Channel, this tray is designed to withstand even the harshest of environments, making it the perfect choice for industrial and commercial applications.

Our Stainless Steel Cable Tray is available in custom lengths, allowing for a perfect fit in any space. Whether you need a short length for a small project or a longer length for a larger installation, our cable tray can be customized to meet your specific needs. Plus, with its wall-mounted and suspended installation methods, this tray can be easily installed in any location.

With a cable tray height range of 50mm-1000mm, this tray can accommodate a wide range of cable sizes and types, making it versatile enough to use in a variety of applications. Whether you need to organize power cables, data cables, or any other type of cable, this tray has you covered.

Our Stainless Steel Cable Tray is perfect for both indoor and outdoor use, making it an ideal choice for any setting. Whether you need to organize cables in a factory, warehouse, or office building, this tray is the perfect solution.

In conclusion, if you're looking for a reliable and long-lasting solution for cable management, our Stainless Steel Cable Tray is the perfect choice. With its Chrome Nickel Wire Mounting Tray, Metallic Rod Cabling System, and Inox Cable Channel, this tray is designed to withstand even the toughest environments. Plus, with its custom length, wall-mounted and suspended installation methods, and cable tray height range of 50mm-1000mm, this tray is versatile enough to use in a wide range of applications. Order today and start organizing your cables like a pro!

Features:

- Product Name: Stainless steel cable tray
- Cable Tray Length: Customized
- Cable Tray Height: 50mm-1000mm
- Maintenance: Low Maintenance
- Accessories: Available For Purchase Separately
- Corrosion Resistance: High

The Stainless steel cable tray is a durable and reliable Steel Wire Cable Tray that can accommodate a variety of Metallic Rod Cabling System. The tray is made of high-quality Stainless Iron Wiring Bridge material that provides excellent corrosion resistance, ensuring longevity and low maintenance. Accessories are available for purchase separately to customize the tray's functionality according to your needs. The tray's length is customizable, and it can support cable tray heights ranging from 50mm-1000mm.

Technical Parameters:

Product Attribute	Value
Cable Tray Length	Customized
Corrosion Resistance	High
Durability	Long-lasting
Cable Tray Width	50mm-1000mm
Load Capacity	Medium To Heavy Duty
Cable Tray Height	50mm-1000mm
Cable Tray Depth	50mm-1000mm
Size	Various Sizes Available
Maintenance	Low Maintenance
Installation Method	Wall-mounted, Suspended, Etc.
Product Name	Chrome Nickel Wire Mounting Tray, Inox Cable Channel, Inox Cable Channel

Applications:

The Stainless Steel Cable Tray is easy to maintain and requires low maintenance. This makes it a cost-effective solution for both indoor and outdoor applications. The product is designed to withstand harsh weather conditions and is resistant to corrosion, making it a durable solution for cable management.

The tray is available in various depths ranging from 50mm to 1000mm and heights ranging from 50mm to 1000mm. This makes it a versatile product that can be used in a wide range of applications. The tray can be easily installed and comes with accessories that can be purchased separately.

The Stainless Steel Cable Tray is also known as a Stainless Iron Wiring Bridge, Inox Cable Channel, or Metallic Rod Cabling System. The product is widely used in various industries including construction, telecommunications, and power generation. It is an ideal solution for managing and organizing cables in commercial and industrial settings.

The product application occasions and scenarios for the Stainless Steel Cable Tray include the following:

Power generation plants

Telecommunications facilities
Manufacturing plants
Commercial buildings
Data centers
Hospitals
Airports
Universities and schools

In conclusion, ShengQuan's Stainless Steel Cable Tray is a versatile and durable solution for cable management. It is a cost-effective option that requires low maintenance and is suitable for both indoor and outdoor applications. The tray is available in various models, depths, and heights, making it a versatile product that can be used in a wide range of applications.
